¹ "Business Day" is a day (other than a Saturday or Sunday) on which the SEHK is open for trading in Hong Kong or such other day or days as the Manager and the Trustee may agree from time to time.

² The computation basis of the performance is based on the last Business Day of the calendar year / period, NAV-To-NAV, with dividend reinvested (if any). Investment returns are denominated in the relevant unit class currency of the Fund. Where the unit class currency is not US/HK Dollars, US/HK Dollar-based investors are exposed to exchange rate fluctuations.

³ Where no past performance is shown there was insufficient data available to provide performance during the calendar year / period being shown.

⁴ The Manager views Class I (USD) as the most appropriate representative unit class. The NAV per Unit is for reference only and not indicative for the future performance. The value of units may rise as well as fall.

⁵ Please refer to the Explanatory Memorandum for further details including the minimum additional investment, minimum holding and minimum realization.

⁶ Please refer to the Explanatory Memorandum for further details of fee structure.

⁷ Up to 3% p.a. The current annual rate may be increased up to the specified permitted maximum level as set out in the Explanatory Memorandum by giving not less than one month's prior notice to the investors.

⁸ For the list of Eligible Collective Investment Schemes under New CIES, please refer to SFCHK website for most updated information. For further details of the New CIES, please refer to the website of the New CIES hosted by Invest Hong Kong.

Portfolio Characteristics

- Weighted average maturity: 58 days
- Weighted average yield to maturity *: 3.89%

*Weighted Average yield to maturity (YTM) is the internal rate of return calculated based on the current price of the underlying asset assuming held to maturity, and all interest and principal are paid on time and reinvested at the current interest rate. The calculation of YTM takes into account the current market price, par value, coupon rate and maturity date. YTM does not represent the performance of the Fund and a positive YTM does not imply a positive return. The Fund may not hold the relevant investment until its maturity.
